Subject: RE: Poster for Review- DNTS 2019- Evidence mapping of PCB neurological effects
Attachments: Carlson DNTS 2019 poster_PCB Neuro evidence map_author review_clearance with figure.pptx

Hi all,

Here is an updated draft of the poster, integrating your feedback and the updated figure, for your records. Please let me know if you have any further feedback (the poster is still undergoing clearance so revisions could still be incorporated).

Thank you,

Laura

Subject: Poster for Review- DNTS 2019- Evidence mapping of PCB neurological effects

Hi all,

I've been working on developing a draft poster for the 2019 Developmental neurotoxicology meeting (June 22-26)—you are listed as a co-author. The abstract is attached if you need a refresher. Of note, Figure 2 is currently a placeholder. We are conducting the relative sensitivity analysis and modeling this week and will provide an updated version of the poster with the real figure early next week. So, focus your review on the rest of the poster.

Please provide any comments to the poster by next Wednesday (6/12/19), so that the poster can be entered into EPA clearance. please let me know if you need more time.

Thank you!

Laura
